Update: Comcast has turned on the first 50,000 residential hotspots. Original post: Some time on Tuesday afternoon, about 50,000 Comcast Internet customers in Houston.

As posted earlier in the thread: When on an HD channel and with this guide update for Cisco and SA branded cable boxes, the guide overlays are now displayed in a 4:3.

Those who use Comcast s Xfinity-branded residential-gateway broadband routers, which combine a cable modem with an Ethernet and wireless router, could soon find.

Trying to decide between AT&T Uverse Vs Comcast? We've put both services to the test and developed a comparison so you can save time researching.
